This Warranty is solely between the parties to the Puppy Contract and cannot be transferred. This Warranty starts at the Delivery date.

The Puppy will be Delivered (as defined above on page 1) to Buyer with current shots and deworming. Seller arranges a Vet appointment before Delivery, typically within 48 hours before Delivery. Seller's Vet checks the Puppy very carefully. If Seller's Vet feels the Puppy is not ready for Delivery, Seller will not Deliver the Puppy on the expected date and a new date will need to be agreed by the parties. Seller will provide that Puppy is determined by our Vet to be in good health prior to Delivery.

#### Dog Food:

Since the major dog food recalls in 2007, Seller recommends that the Puppy be fed Life's Abundance® Premium Health Food. The recalls evidence that not all pet food is of equal high quality. Most of the problems that were caused by the bad food were liver and kidney related. This is the food Seller feeds all breeder dogs and puppies in Seller's care. Full recovery under the liver and kidney-related Warranty is conditioned upon Buyer feeding this or an equivalent brand of food. Life's Abundance Premium Health Food is all natural and vet formulated and is only available online. Seller requires Buyer to purchase this food from <http://www.qualitypetfood.net/>; as Seller receives a list of customers from this source. Life's Abundance offers an auto ship program which saves Buyer about 20% on the retail price.

#### II. Demodectic Mange:

Seller warrants the Puppy against genetic demodectic mange for the Puppy's Lifetime; I have been breeding since 1994 and have never had any issues with this condition.

To make a claim under this circumstance, Buyer must provide all test results and a letter from two licensed Vets agreeing on the diagnosis.

#### III. Other Genetic Health issues

If during its first five years of life your Puppy develops a genetic condition that is not heart, kidney, liver or cancer linked to the breeder's breeding program, Buyer must submit the required documentation to make a claim and upon validation, Buyer will receive an adoption credit equal to fifty percent (50%) of their original adoption fee ("Adoption Credit #2"); Adoption Credit #2 is usable towards the costs associated with the adoption of a replacement puppy from Seller.

In connection with the replacement puppy, Buyer is responsible to pay all delivery/travel charges along with the micro chipping fee and the cost of spay/neutering.

To make a claim under this circumstance, Buyer must provide Seller with all Vet records, and Seller's Vet will need to confirm the information via conversation with Buyer's Vet.

#### IV. Parvo Warranty:

This Warranty covers parvo for ninety (90) days after Puppy Delivery.

In the event Puppy contracts parvo, the Buyer must submit the required documentation to make a claim and upon validation Seller will provide Buyer with an adoption credit equal to fifty percent (50%) of their original adoption fee ("Adoption Credit #3"); Adoption Credit #3 is usable towards the costs associated with the adoption of a replacement Puppy from Seller.

In connection with the replacement puppy, Buyer is responsible to pay all delivery/travel charges along with the micro chipping fee and the cost of spay/neutering.

In order to make a claim under this circumstance, Buyer must have completed the Puppy's booster shots on time and up to date as of the date of Puppy Delivery and Buyer must provide Seller with a copy of all health records, including shot records and receipts.

#### V. Health Check Up:

Prior to Delivery, each Puppy will have a complete check-up which will include two types of full blood panels. If said Puppy does not pass this check-up or blood panel, all monies paid by Buyer for said Puppy will be applied toward the purchase of another puppy from Seller. There are no refunds unless Seller cannot place a Puppy with Buyer within twelve (12) months of the date of this event.

#### VI. Other:

There are certain disorders and issues (i.e.: hypoglycemia, allergies, thyroid dysfunction, kennel cough, gardia, coxidia) that can arise that may be caused by environmental factors and stress that cannot be controlled nor can the Seller/breeder be held responsible for such disorders under any circumstances. All and any medical or any financial issues incurred in connection with these certain disorders are the sole responsibility of the Buyer from the Puppy Delivery date. There are no exceptions for any reason. Seller is not responsible for any Vet, medical or financial bills that are incurred in connection with such disorders or any other Puppy diseases not stated in this Warranty. Any and all such conditions that may arise in the Puppy are solely the responsibility of the Buyer and not the Seller. It is the sole responsibility of Buyer to treat the Puppy for all and any medical conditions that arise from the Puppy Delivery date forward.

#### VII. Puppy Size:

Seller cannot guarantee the size to which any Puppy will grow. Seller has been a professional breeder since 1994 and will do their best to estimate the size of the Puppy Buyer is adopting. Several factors impact a dog's size as an adult. Additionally, no Puppy will leave Seller's care until they are at least 2lbs or 12 weeks; any small puppy that is still in Seller's care at 16 weeks
